RE: WW Sanitation 980607063

Dear Ms. Griffin:

Per the Government Accounting Office (GAO) Audit Report of December 1998, and your request of June 1999, the Illinois Environmental Protection Agency has completed a file review for the above mentioned site and determined that this site is no longer deemed eligible for Superfund Action and should not remain in CERCLIS.

A review of existing records indicate that the most recent PRESCORE for the site is below the Regional threshold for keeping sites active in the CERCLA assessment process, and should therefore be removed from the active CERCLIS. This No Further Remedial Action Planned recommendation is being made so that CERCLIS can clearly reflect sites that need to be addressed by Superfund.

This letter should fulfill the GAO audit commitment for this site. If you have any questions or need additional information, please contact me a.

Sincerely,

A handwritten signature in dark ink, appearing to read "Thomas Crause".

GAO Survey of NPL-Eligible Sites: U.S. EPA

Introduction

The U.S. General Accounting Office (GAO) examines issues for the U.S. Congress. We are conducting a review of contaminated sites that are considered "NPL-eligible." That is, these sites are found to be eligible for placement on the National Priorities List (NPL) after a site inspection by the U.S. Environmental Protection Agency (EPA). As part of our review, we are sending surveys to all EPA regions to request information on the individual sites located in their region. We are assessing the likelihood that sites will be placed on the NPL and the activities that are occurring to mitigate contamination at these sites.

This questionnaire asks about 1 of 3,000 NPL-eligible sites nationwide (as of October 8, 1997). In this questionnaire, we ask for information contained in your site inspection records. We are sending a similar survey to the appropriate state/territory/tribe to gain its perspective and to obtain additional information that they might have. Therefore, it is not necessary to consult with the state, territory, or tribe since they are also providing site information to us. Please have the most appropriate EPA staff fill out the questionnaire for the site indicated on the label.

Your response within 21 days of receiving this survey will help us avoid costly follow-ups. If the self-addressed business-reply envelope is missing, please return the questionnaire to the following address:

U.S. General Accounting Office
Attn: Vincent Price
441 G Street NW, Room 2T23
Washington, DC 20548

If you have any questions, please call Vince Price at (202) 512-6529.

Thank you for your assistance.

1. Please fill out the following in case we need to contact the person completing this survey.

Name: Jan Pels
Phone: (312/886-3009)

2. Please answer each question below to determine whether this site should be included in our survey. (Please circle answers.)

- a. Is site deferred to RCRA or the Nuclear Regulatory Commission? Yes ☐ No ☒
- b. Is site's preliminary Hazardous Ranking System score below 28.5? Yes ☒ No ☐
- c. Is site now designated as "no further remedial action planned" (NFRAP)? Yes ☐ No ☒
- d. Is site now addressed as part of an existing NPL site? Yes ☐ No ☒
- e. Is site proposed for the NPL? Yes ☐ No ☒

3. Did you answer "yes" for any item above? (Check one.)

- 1. ☒ Yes--> Please stop here and return this survey to us.
- 2. ☐ No --> Please continue with survey.
